(54) Title: SYSTEM AND METHOD FOR MANAGING THE DELIVERY OF ORDERS FOR GOODS

(57) Abstract: A system and method for managing the delivery of goods. The system and method particularly provides for manifesting and controlling route-based delivery of orders or packages from a vendor to one or more locations accessible by customers. The locations may include automated, self-service vending machines and/or will-call lockers, under the control of a system (ideally centralized and automated) that can receive and actively manage manifest information.
